## New Brussels office for CDP, Autostrade per l'Italia, Italgas, Nexi, Open Fiber, Snam and the public company PagoPA

*The expansion of the activities will result in stronger bilateral relations with European institutions and companies*

*The new location will facilitate systemic initiatives on key issues for Italy in terms of sustainable development*

Brussels, 7 June 2023. - Today in Brussels marked the inauguration, at the presence of Federica Favi, Ambassador of Italy to the Kingdom of Belgium, of the new European representative office, which will host the delegations of Cassa Depositi e Prestiti, of several CDP Group's companies and of PagoPA.

The event was attended by: Giovanni Gorno **Tempini** and Dario **Scannapieco**, respectively Chairman and Chief Executive Officer of CDP; Elisabetta **Oliveri**, Chairwoman of Autostrade per l'Italia; Monica **de Virgiliis**, Chairwoman of Snam; Paolo **Gallo**, Chief Executive Officer, of Italgas; Renato **Martini**, Executive Committee Member of NEXI; Francesco **Nonno**, Director of Regulatory and European Affairs at Open Fiber and Alessandro **Moricca**, Executive Director of PagoPA.

The new office will allow a significant consolidation of the European operations of the companies involved, facilitating joint work on key issues for Italy's sustainable economic, social, and infrastructural development. The expansion of the activities in Brussels will therefore lead to a consolidation of bilateral relations with the leading counterpart institutions and companies, in a context where collaboration and ongoing dialogue with European counterparts play an increasingly central role in achieving the country's strategic objectives, while at the same time strengthening relations with the European peers of the CDP Group and the companies involved.

The objectives of the new structure include continuous coordination with all the entities represented for the possible evaluation of joint proposals and initiatives on key issues for Italy and the EU, including climate change and energy supply, sustainable infrastructure, digitalization and innovation.
