

Adaptation and extension of the Ruta del Sol Motorway, third lot – Colombia

CDP is currently working on a loan in favour of WeBuild S.p.A., intended to support the expansion and adaptation project of the [third lot of the Ruta del Sol Motorway](#) in Colombia, managed by its subsidiary Yuma Concessionaria S.A.

In line with CDP's focus on the environmental and social impacts of potentially fundable projects, an external consultant ([Environmental Resources Management](#) – ERM) was appointed for the assessment and drafting of the project's Environmental and Social Impact Assessment (ESIA) report, in line with the IFC Performance Standards.

The social and environmental due diligence and any possible resulting Action Plan must be consistent with CDP's policies for the purpose of approving and disbursing the loan.

The documentation will be made public on CDP's website as soon as it will be available.
