AMENDMENTS AND ADDITION TO THE BASE PROSPECTUS

The purpose of this Supplement is to:

1. update the section of the Base Prospectus entitled “*Risk Factors*”;
2. incorporate by reference in the Base Prospectus the Half-yearly Financial Report as of 30 June 2023;
3. update the section entitled “*Description of Cassa Depositi e Prestiti S.p.A.*” in order to (a) include an updated structure chart, (b) update references to CDP’s share capital and share ownership, (c) update the names and positions of the members of CDP administrative, management and supervisory bodies, (d) update the number of CDP’s employees, (e) include the updated organisational structure and (f) include certain recent developments relating to CDP;
4. update of the paragraph “*No material adverse and no significant change*” in the section entitled “*General Information*” as a result of the publication of the Half-yearly Financial Report as of 30 June 2023.

1. RISK FACTORS

The amendments included in this paragraph have been inserted in order to (a) update the participations held by CDP, (b) include the main risks arising from CDP's participation in Nexi S.p.A. and (c) include the main risks arising from CDP's participation in Italgas S.p.A..

In particular, paragraph *"Risk factors arising out of companies forming part of the CDP Group"* in section *"Risk Factors"* set out at pages 29 - 35 of the Base Prospectus shall be amended as follows:

(a) the first two paragraph shall be entirely superseded and updated as follows:

"Risk factors arising out of companies forming part of the CDP Group"

CDP holds shares in investment funds and shares in public and closely Italian companies that manage key infrastructures or assets or operate in national strategic sectors. In particular, CDP has direct participations in companies such as Eni S.p.A. (27.7% stake as of 30 June 2023, which represents almost 40% of CDP's entire shareholdings' portfolio in terms of book value as of 30 June 2023) and Poste Italiane (35.0% stake as of 30 June 2023). Furthermore, CDP indirectly holds through CDP Equity, which is fully owned by CDP, a number of participations such as those in Autostrade per l'Italia S.p.A. (44.9% stake as of 30 June 2023), Open Fiber S.p.A. (60.0% stake as of 30 June 2023), Fincantieri S.p.A. (71.3% stake as of 30 June 2023), Saipem S.p.A. (12.8% stake as of 30 June 2023) and Ansaldo Energia S.p.A. (99.5% stake as of 30 June 2023). In addition, CDP indirectly holds through CDP Reti S.p.A. (in which CDP has a 59.1% stake) several participations in companies such as Snam S.p.A. (31.4% stake as of 30 June 2023), Terna S.p.A. (29.9% stake as of 30 June 2023) and Italgas S.p.A. (26.0% stake as of 30 June 2023). Such portfolio shares are relevant because either (i) the relevant companies are subject to CDP's management and coordination (including CDP Equity and CDP Reti S.p.A.) or (ii) because of the amount of capital CDP has invested in them (the **"Significant Portfolio Companies"**).

CDP is subject to the same risks to which the companies forming part of the CDP Group are subject to, such as (i) market risks; (ii) liquidity risks; (iii) credit risks; (iv) operational risks (including cyber-security and IT) and regulatory risks; (v) counterparty risks and (vi) risks arising out of legal disputes, legal proceedings, including investigations by the relevant agencies and authorities (see also *"Description of Cassa Depositi e Prestiti S.p.A. – Legal Proceedings"*) and (v) climate change risk (see also paragraph *"Disclosure on the impacts of climate related matters"* under the audited consolidated annual financial statements of CDP for the financial year ended 31 December 2022). The occurrence of any events which affect the business, results of operations and financial condition of CDP's portfolio shares could determine a decrease in dividend payments/contributions from such portfolio companies, a decrease in the value of CDP's listed equity investments and a possible drop in the value of CDP's overall portfolio. A decrease in the value of CDP's portfolio shares could adversely affect CDP's business, results of operations and financial condition.”;

- (b) after the paragraph “*Open Fiber S.p.A.*” set out at page 32, the following paragraph shall be included:

“*Nexi S.p.A.*”

Nexi Group (“**Nexi**”), established through the merger of Nexi, Nets and Sia, is the leading European player in the payments market (merchant, issuing and digital banking) operating in more than 25 countries.

Nexi is exposed to, among others, the following risks: (i) macroeconomic risk due to inflation, interest rates and confidence from companies and consumers, which may affect both consumer and investment; (ii) risk related to Nexi’s strategy which is significantly focused on M&A activities; (iii) risk related to customer concentration (in particular, banks and financial institutions that may increase their trading power with Nexi in case of consolidation); (iv) market risk, as Nexi operates in highly competitive sectors where competition is mainly based on technological innovation, quality, breadth and reliability of services; (v) risk related to regulatory changes; (vi) operational risk related to data storage and processing; (vii) financial risks such as interest rate fluctuation and debt refinancing. CDP financial performance could be potentially affected by an eventual manifestation of such risks, due to the participation in Nexi S.p.A. held through CDP Equity both directly (equal to 5.3%) and indirectly through CDP Equity Investments (equal to 8.3%) in which CDP Equity holds 77.1% of the share capital.”;

- (c) after the paragraph “*Snam S.p.A.*” set out at pages 34 - 35, the following paragraph shall be included:

“*Italgas S.p.A.*”

Italgas S.p.A. and its subsidiaries (“**Italgas Group**”) are specialized in the gas distribution activities in Italy; they have recently been growing in the energy efficiency and integrated water service sectors.

Italgas Group is exposed to, among others, the following risks: (i) regulatory risk due to the fact that transmission and storage activities are subject to regulation by the Regulatory Authority for Energy, Networks and the Environment (*ARERA*); (ii) credit and refinancing risk due to a net debt equal more than 5x EBITDA; (iii) concentration risk, with over 90% of Italgas Group’s revenues concentrated in the natural gas distribution activity. Furthermore, the Italgas Group’s activities are linked to the renewal of gas distribution licenses upon the outcome of tenders, as well as to the quantification of the expected reimbursement values in favour of the outgoing operator pursuant to the applicable regulations. CDP financial performance could be potentially affected by an eventual manifestation of such risks, due to the participation in Italgas S.p.A. (equal to 26.0%) held through CDP Reti in which CDP holds 59.1% of the share capital.”
